

Lizard Island QLD

The destination for many travellers and after going there you will agree that not many better places exist. The water is crystal clear and the diving spectacular. Anchorage in the lagoon is secure in most winds. Be careful when entering as it is narrow. The northern end of Watsons Bay has a QPWS camping site with fresh water. There is a track that leads to Cooks Look. The resort is up market and has had some famous visitors. The Marlin Bar at the resort is open to day visitors and has a sausage sizzle on Friday night. VHF18 or 19 weather reports @ 0633 & 1633
